

KONEXE MICROPHONE CABLE (GOLD)

KNXC-M223

Product Description

Konexe 2 Core Microphone Cable Gold 23 AWG is engineered for professional audio environments where signal clarity and durability are paramount. Designed for event industries, studios, and live performances, this cable features a high-grade Oxygen-Free Copper (OFC) conductor that ensures low capacitance and transparent signal transmission.

Features

- Oxygen-Free Copper (OFC)
- Shielding: High-density 100% Copper Braid
- Jacket: Flexible Soft PVC
- Packaging: 90-meter coils (Custom lengths available on request)
- Colors: Black, Blue, Brown, Green, Red, Yellow, Violet, Orange (Customisable)

Construction

Cores	2
Conductor Material	Annealed Bare Copper (OFC)
Stranding per core	19 strands of 0.132mm
Cross Sectional Area	23 AWG
Inner Sheath	HDPE
Outer Sheath	Special PVC compound
Cable Diameter	6.00 ± 0.5 mm
Shield	100% Copper Braiding (128 strands)

Electrical Properties

Conductor Resistance at 20°C	≤ 67.9 Ω/1000m
Inductance (1 KHz at 20°C)	0.50 μH/m
Capacitance (1 KHz at 20°C)	250 pf/m

Mehcanical Properties

High Voltage Test	1.0 KV withstand for 1 minute
Operating Temperature	-20°C to +70°C
